

I, as a citizen of the state of Indiana like the "No call" list set in place by our state attorney general. I feel that to change it to allow banks and lending institutions to have free access to those on the list is in gross violation of that law (boarding on criminal).I value my privacy and want NO unwanted calls soliciting or selling goods or services that I do not need or want. I think I am being very clear on my wishes. Sincerly Douglas D. Moore
